The County may assess penalties for failure to comply with the requirements of the contract. Penalties may be withheld from any subsidy or invoiced to Contractor as an assessment. Assessments must be paid within 60 days of assessment, regardless of appeal date.

## **13. Performance Requirement Penalty**

In the event Contractor fails to comply with any of the terms of the contract, the County may issue the Contractor a written warning describing such failure. Should Contractor's noncompliance continue after receipt of such warning, the County may deduct penalties from any subsidy, or assess a penalty that is payable to County within sixty (30) days of notification, in the amount of Two Hundred Fifty Dollars (\$250) for each day Contractor remains in noncompliance following receipt of the written warning. Should the noncompliance continue for

more than five (5) consecutive days, the County may increase penalties to Five Hundred Dollars (\$500) for each additional day Contractor remains in noncompliance.

#### **14. Response Time Requirements**

Ambulances must be compliant with the following minimum response time requirements. Response times are a combination of dispatch operations and field operations. The County shall be responsible for classifying all EMS calls using dispatch protocols and using emergency medical dispatching. The County does not plan to limit the Contractor's flexibility in the methods of deployment and providing service as long as the minimum response time requirements are achieved.

The Contractor shall place a transport capable ALS service ambulance at the scene of all requests for emergency medical services within the designated response time at a minimum of a ninety percent (90%) rate for all emergency dispatch response requests. This rate will be measured monthly and reported to the County.

The County will work with Contractor as required to determine operational zones, assignments and move-ups.

##### **a. Emergency Responses**

All unincorporated areas of Cleburne County- Contractors first in assignment must arrive at the scene within twenty (20:00) minutes at least 90% of the time.

##### **b. Calculation of Response Times**

For all classifications of requests for service, the response time shall be the elapsed time (measured to the second) from the time "call received" to the time "arrival on scene". The time "call received" shall be from the second the Contractor is actually notified by Cleburne County Dispatch. The time "arrival on scene" shall be the time a fully equipped transport capable ALS service ambulance arrives at the location of the patient or request for service and an ambulance crew notifies the dispatch center that it is fully stopped at the location where the ambulance crew will exit to approach the patient.

First Responders do not constitute "arrival on scene" by the Contractor.

"Arrival on scene" may be defined as when a full-time, paid employee of the Contractor, such as a supervisor or "Quick response vehicle", arrives at the location of the request for service, provided that:

- Employee is a licensed paramedic or higher; and
- Employee is on duty and arrives in a vehicle clearly marked and identified as the Contractor's vehicle; and
- Vehicle is equipped to provide Advanced Life Support; and
- Employee is in continual communication with the responding ambulance; and

- Employee begins patient care upon arrival on scene and provides appropriate emergency medical services prior to ambulance arrival.

#### **d. Upgraded and Downgraded Requests**

For emergency requests that are upgraded while in route upon request of an on-scene First Responder or in compliance with Dispatch Protocols, the response time shall be calculated from the moment of the upgrade request, and the higher priority standard shall be used. For emergency requests that are downgraded upon request of an on-scene First Responder or in compliance with Dispatch Protocols, the response time shall be calculated as the lower priority requirement.

#### **e. Response Time Exemptions**

The County understands that isolated instances may occur in which the Contractor does not meet the stated performance specifications. However, a chronic failure to comply with the response time requirements may constitute default of the contract. The Contractor shall maintain mechanisms for reserve production capacity to increase service production should a temporary system overload persist.

From time to time, unusual factors beyond the Contractor's reasonable control may affect the achievement of specified response time standards. These unusual factors are limited to those noted below:

- (1) Requests occurring during a period of unusually severe inclement weather conditions, unless weather was predicted sufficiently in advance that levels of preparedness should have been increased and such steps were not taken, when such response time compliance is either impossible or achievable only at a great risk to EMS personnel and the public;
- (2) In the event of Mass Casualty Incident, all ambulances responding to the Mass Casualty Incident other than the first ambulance on the scene;
- (3) Situations where the communications center receives false or inaccurate information or was unable to obtain adequate response information;
- (4) Requests during a declared disaster within Cleburne County and confirmed by the County, in which the Contractor is rendering assistance. During such periods, the Contractor shall use best efforts to maintain primary coverage, while simultaneously providing disaster assistance as needed; or
- (5) Request during times of unusually heavy call demand.

Equipment failure, ambulance failure, or other causes shall not be grounds for granting an exception to compliance with any response time standard. No other causes of late response time

shall serve to justify exemption from response time requirements. However, the Contractor may appeal such instances to the County. Any appeals shall be filed with the County Judge and County Clerk in writing within thirty (30) days of notification of the incident. Appeals of such instances shall be handled by the Quorum Court by majority vote to allow or disallow such justification for an exemption.

#### **15. Response Time Requirement Penalty**

For every emergency request where Contractor exceeds response time requirements for the specific response area, the County may assess penalties of Five Hundred Dollars (\$500) for each occurrence, which exceeds the response time requirements.

#### **16. Monthly Reporting.**

The County and Contractor agree that Contractor will provide a monthly report to the Cleburne County Judge's Office that includes a breakdown on the number of calls the Contractor responded to in Cleburne County, the type of each call, the area of the County in which the call originated, and the number of calls requiring air evacuation.

#### **17. Severability**

Each paragraph of this Agreement is severable from all other paragraphs. In the event any court of competent jurisdiction determines that any paragraph or provision of this Agreement is invalid, the remaining paragraphs and subparagraphs will remain in full force and effect.

#### **18. Succession**

This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective heirs, successors and assigns. However, the County specifically reserves the right to terminate this Agreement/Contract should Contractor sell or attempt to assign this Agreement in any form or fashion to a third party.

#### **19. Interpretation.**

This Agreement shall be interpreted according to and enforced under the laws of the State of Arkansas.

#### **20. Entire Agreement.**

This Agreement contains the entire agreement of both parties hereto, and no other oral or written agreement shall be binding on the parties hereto. This Agreement supersedes all prior and contemporaneous agreements, contracts and understanding of any kind between the parties

relating to the subject matter hereof. This Agreement executed in all or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

**21. Notice.**

All notices, requests, demands and other communications required by or permitted hereunder shall be in writing and shall be deemed to have been duly given when received by the party to whom directed; provided, however that notice shall be conclusively deemed given a the time of it deposit in the United States Mail when sent by certified mail postage prepaid, to the other party at the address set forth herein.
